To Overcome Sunburn. Tan, Freckles, Wrinkles

(From Outdoor Life.)

If you are freckled, tanned or sunburnt, dab a liberal amount of mercolized wax on the face and allow it to remain over night. When you wash off the wax in the morning, fine, flaky, almost invisible particles of cuticle come with it. Repeating this daily, the entire outer skin is absorbed, but so gradually, there's not the slightest hurt or inconvenience. Even the stubbornest freckles yield to this treatment. The underlying skin which forms the new complexion is so fresh and youthful looking you'll marvel at the transformation. It's the only thing I know to actually discard an aged, faded, muddy or blotchy complexion. It is also good for arms, hands and neck. One ounce of mercolized wax, procurable at any drug store, is sufficient in most cases. If sun and wind make you squint and frown, you're bound to cultivate wrinkles and crow's feet. To overcome these, bathe the face in a solution made by dissolving an ounce of powdered saxolite in a half pipt witch hazel. (From Outdoor Life.)
